## 6. NGF stipend 2001

NGFs stipend er åpent i år for alle medlemmer uansett alder og temaet er fritt. Se vedlagte skriv.

## 7. Invitasjon til foredrag på NGI, tirsdag 9 oktober kl 14.30 – 15.30

Resistivity Testing in Norway: A critical evaluation of the method.

Dr. Mary Roth from Lafayette College in Pennsylvania has conducted resistivity tests at sites throughout Norway. She will present an overview of resistivity testing methods including the theory and typical applications (e.g., locating subsurface soil/rock layers, voids, fractures, and contaminants.) Using data from Norwegian sites, she will evaluate the benefits and limitations of the technique. She will conclude by presenting recommendations concerning the use of the method.

Med vennlig hilsen
